ENGAGEMENT ANNOUNCEMENT Mrs. E. Baptist announces the engagement of her second youngest daughter, Lottie Elizabeth, to Mr. Roy C. Westfall, son of Mr. and Mrs. Claude Westfall of Carstairs. The marriage will take place at the Evangelical Church on July 8th.

EAST NOTES

A good game of hard ball was played at the Hawkeye diamond on June 4th against Lone Pine and the score was 8-7 in overtime play with Lone Pine being the winners. On June 7th Lone Pine played Frog Hollow at the latter's diamond and the Lone Pine boys came out victorious.

On June 11 there was a good game played at Bancroft, where Lone Pine lost 15-14. Mr. and Mrs. Gerlitz, Mrs. Adam Schumaker and Mrs. John Schumaker, all of Calgary, and Mrs. Palmer of Vancouver, all visited last Wednesday with Mr. and Mrs. Pete Schumaker. Mrs. Palmer conveyed best wishes from Mr. Albert Cluny (Esther Schumaker).

The Jutland school pupils and their parents and Mr. and Mrs. Harder visited quite a number of places in Calgary Saturday and had a picnic lunch at St. George's Island.

Siebertville school team came to Jutland Friday and played softball. The Siebertville team came out as winners.

Mr. and Mrs. Walter McCulloch were Sunday evening visitors at the Brander home.

Mr. and Mrs. Schumaker had dinner on Friday with Mr. and Mrs. Walter McCulloch.

Mr. and Mrs. Schumaker and Gloria and Joyce, and Mr. Elwood Topley spent Sunday evening with Mr. and Mrs. Alfie Thompson and family.

Best wishes are extended to Georgie Sheila who is patient in the Holy Cross hospital.

Alfie Thompson, Reg Jamieson, Donald Thompson and Harold Hobbs of Calgary were fishing at Pine Lake on Sunday but they didn't tell us what they caught.

Mrs. Gordon Rathburn was the June hostess for the Lone Pine W.I. meeting. A picnic was planned for June 30, and before that date the community is asked to come out and help put up swings at the hall. The Institute members are to bring cakes for the dance at night.

Mrs. S. Brander and Miss Merle Siebert were elected delegates to attend the Farm Women's Week at Oids.

All members are asked to bring an article to the next meeting to help the Manitoba Flood Relief Fund.

Seven members and two visitors answered the roll call, and the meeting closed with lunch being served by the hostess.

On Monday afternoon a shower was held at the home of Mrs. Bruce Sheila in honor of Miss Evelyn Elliott. The afternoon was spent in contests and looking over the bride's book made by Mrs. Harold Sheila.

About 40 guests were present and the gifts were arranged in a decorated basket. Evelyn thanked everyone for the many useful gifts she received, and lunch was served by the hostess.

HEALTH UNIT REPORTS

Saturday, June 3, 1950.—Bye and
large we have reason to be satis-
fied with the health of our com-
munity this week. Of the commu-
nicable diseases there have been
one or two cases of scarlet fever, a
few cases of German measles, and
an odd case or two of chickenpox.
But none of them severity.

We have given some time to the
inspection of water supplies. Where
the well has been drilled, and is
deep and of sound approved con-
struction, no fault could be found
with the quality of the water. But
where the construction has been
faulty, as so often is the case with
shallow, dug wells, the water has
invariably been so contaminated as
to be quite unfit for human con-
sumption.

A subject which has been of
some concern and worry to us this
week has been the supply of milk
and cream. These two dairy pro-
ducts enter intimately into the
daily life of all of us. Milk, as
we all know, is a most valuable
food, and cream, as well as being
a valuable food, is a very delect-
able one. And as they both form
such an important part of our daily
diet, and both are liable to carry
the germs of many serious dis-
eases, the public health depart-
ment of all provinces, and in fact
of all civilized countries, have
framed a variety of regulations, all
of them designed to ensure a milk
supply which is not only of ade-
quate food value, but which is also
free from disease. In other words
milk and cream are controlled
from the time the cow is milked
to the time the product is deliv-
ered at the customer's door.

If there were no such control it
would obviously be the easiest
thing in the world to thin milk
down by adding water, to adulter-
ate milk and cream by the addi-
tion of valueless or even noxious
substances, and what would be
even more serious, to supply milk
from diseased cows or to contam-
inate it by contact with dirty ves-
sels and containers.

Quite unthinkingly the public
accepts many things designed for
its benefit without realizing the
thought and planning and work
which have gone into measures
framed for its safety. We take our
daily milk supply for granted, and
give little thought to the regula-
tions which have made it safe for
us.

It is of course quite impossible
in a short article of this nature to
give more than the barest outline
of such regulations. But anyone
interested may obtain a book of
Regulations from the Provincial
Board of Public Health in Edmon-
ton. They make interesting read-
ing. And they go all the way
from providing that all cows are

tuberculin tested and found free
from tuberculosis, to ensure that
"wagons or other vehicles used
for the distribution of milk or
cream must be clean or sanitary,
and must be so enclosed as to pro-
tect the milk or cream from ex-
posure to contamination".

But we may well add a few
words as to the diseases which
milk may carry. Tuberculosis is
probably the best known of them
all. Germs of bovine tuberculosis
are responsible for the nonpulmo-
nary type of tuberculosis of child-
ren; and children drinking un-
pasteurized milk from non tested
herds are more liable to tubercu-
losis of joints, bones and abdomen
than those fed on breast or on
pasteurized milk.

The germs causing undulant fever—also known as brucellosis—the identical with those causing
Bang's Disease in cattle. Malta
Fever in human beings is another
type of brucellosis. But the former
is the commoner in our country,
and responsible for most of the
human cases.

Scarlet fever and diphtheria germs
have often been carried in milk
and so have the organisms caus-
ing septic sore throat. And it is
only thanks to efficient public
health measures that typhoid and
the paratyphoid fevers, together
with the different bacillary dys-
enteries, have not caused more
human distress, suffering and
death.

To ensure a high standard of
quality of milk and cream and
freedom from any of the diseases
mentioned, the places of produc-
tion of milk, of handling, and of
distribution, must be known to the
public health authorities. The regula-
tions therefore provide for the
license of all dairy farms, milk
plants and distributors. Having
been licensed, they may then be
inspected, and may be closed down
if found unsatisfactory.

But if producers or distributors
act clandestinely, without a license
they cannot submit themselves to
inspection, and there is no control
whatsoever as to quality nor any
assurance as to freedom from dis-
ease.

William C. Amman,
Medical Officer of Health.

Planned Saving.

paid off for the Browns

The neighbors remember how sick young
Donny was a few months ago, and how
worried the Browns were. But they never
guessed what a serious drain his illness had
been on the family purse.

Wisely, the Browns had made it a rule to
put something into their savings account,
week by week, almost from the day they
were married. So when they consulted their
bank manager, their credit was good. With
the help of a small bank loan, they were
able to pay all their bills promptly. Now
Donny is healthy again—and so is their
bank account.

Planned saving pays off,
when bargains, opportunities
or emergencies come along.

**Provincial Pheasant
Hatchery at Brooks**

Purpose of the Provincial Pheasant Hatchery at Brooks is to distribute the pheasant population in Alberta. The hatchery, operated by the Game Branch of the Department of Lands and Forests, was opened in the spring of 1945. Since then more than 22,000 pheasants have been shipped to various Alberta centres from Brooks. During the month of May each year a pheasant egg collection program is conducted by the Provincial Game Branch in the Eastern Irrigation District of Alberta. About 12,000 eggs are collected, incubated and chicks raised in brooder houses and wire runs until the birds are two months old. Then the chicks are removed from artificial heat and placed in a large open field where the chicks have trails on a wing to prevent them from flying over the wire fence. The chicks are held in this field for a month while being conditioned for liberation. When three months old they are almost mature. They are liberated in various districts throughout the Province where conditions are most suitable for their survival.

The required eggs are collected by children who are paid four cents per egg. Therefore they take a keen interest in the collection and attempt to "out-do" their fellow collectors. Twenty-two schools, representing a total of 1500 child-

ren and students, are authorized to collect pheasant eggs during the early part of the laying season. If each student collected only eight eggs the incubators at the hatchery would be filled to capacity.

Records indicate that one lad and his sister collected 998 eggs from a 40-acre field. The collectors are further encouraged by a sponsored competition. First, second and third prizes are given to the top collectors.

To assure good hatchability the eggs are picked up daily from the schools and placed in incubators that same day. This method of obtaining eggs eliminated the necessity of constructing holding houses and large runs capable of accommodating 500 hens with cock birds. Such establishments would have to be maintained on a "year-round" basis. The present system of operating the hatchery for a few months gives good results at an economical rate.

Government officials have expressed the belief that more eggs are destroyed every day than the number required each year for operation of the hatchery. Pheasants nest chiefly along ditches and at the edge of willow patches. Many nests are found in fields.

Since ditches must be kept clear of brush, and straw stacks and stubble fields are burned in May, a countless number of eggs are destroyed each spring. Eggs that would otherwise be destroyed are therefore used at the Government hatchery.

KING BROS. CIRCUS WITH JOE
MIX COMING TO OLDS JUNE 20

Elsie St. Varian and Old John,
125 Year Old Elephant

Get Ready! The Circus is coming! The King Bros. Show, with Joe Mix, will exhibit at Olds on Tuesday, June 20, and many are now planning to take in the big event.

Two special convoys are used to transport this great organization from place to place. Travelling with the circus are 600 employees in addition to the 30 advance men. Twenty-two tents covering 12 acres of ground house the transient city in the daytime. The circus has its own doctor, jaguars, elephants, seals and a herd of elephants are but part of the travelling university of natural history.

The famous King Bros. menagerie, declared to be the finest and most complete travelling zoo in the world is a part of the show. Many new, rare and costly specimens of the wild animal kingdom have been gathered from all parts of the globe. Tapis, gnus, Vaaak Varks, lions, tigers, camels, dromedaries, zebras, leopards, panthers, yaks, emus, jaguars, elands, seals and a herd of elephants are but part of the travelling university of natural history.

Great stars from foreign countries, the respective champions in their lines, participate in the gigantic display of arenic numbers. The trained horse displays are headed by John O'Brien, acknowledged to be the greatest trainer of all time.

Joe Mix, the screen's famous Western star with a congress of cowboys, cowgirls, Indians, Cossacks and mount riders will be seen in a spectacular revival of the old West.

Among the equestrians will be St. Leon troupes, champions of Europe. The petite and charming Christine, intrepid aerialist, comes from the Antipodes to thrill and amaze you.

Performances will be given at 2 and 8 p.m. Doors will be opened an hour earlier to permit an inspection of the zoo.

FALLEN TIMBER

Miss Jessie Bruns of Carstairs is visiting with her aunt, Mrs. Joe McGiffin.

Mrs. F. Webb was a Calgary visitor last week.

Miss Ettie Adams visited with Mr. and Mrs. Bob Moore of Bergen for a few days recently.

Mr. and Mrs. R. Politer and Mr. Elmer Bruns of Carstairs visited at the home of Mr. and Mrs. Joe McGiffin.

Congratulations to Mr. and Mrs. Ray Teynor on the birth of a son, a brother for Marion.

The regular meeting of the Busy Bees was held at the home of Mrs. J. Howton with eight members and two visitors present. The report was given on the dance and raffish and all were glad to hear that the sum of \$25 was cleared for the Manitoba Relief Fund. Mrs. Elmer Hayes kindly donated a beautiful satin skirt to be raffled and proceeds will go to Manitoba Relief Fund. The bazaar is to be held at the school picnic as usual with the articles to be auctioned. Mr. Howton Sr. donated a hooked rug to the ladies to be raffled, proceeds to be used as they wish. The draw was won by Mrs. Dick, and Mrs. Joe McGiffin and Mrs. Dick tied in the bit of fun contest. A delightful lunch was served by Mrs. Hayes and Mrs. Wannamaker. The next meeting will be held at the home of Mrs. G. Hone the first Wednesday in July.

A lovely shower was given Miss Ruth Hayes when twenty-one ladies gathered at the school Friday afternoon, with Mrs. Dick as hostess. Many lovely and useful gifts were received by the bride and groom to be. Mrs. D. Gillies sang one of her own compositions and several other numbers were sung by Miss Delores Hayes, Mrs. W. Roberts and Mrs. G. Admussen. Saturday evening sixty guests gathered at the school to honor the new bride and groom, Mr. and Mrs. W.H. McGiffin Sr. of Didsbury. They were the recipients of many beautiful and useful gifts. Many songs, recitations and stories were on the program to make the evening one of laughter and fun.

We understand that Mrs. R. McMullen has just returned from the hospital where she underwent an operation, and we wish her a speedy recovery.

The regular church service was held Sunday, June 11, with a good attendance.

QUILTS FOR THE NEEDY
IN SOUTHERN MANITOBA

Not many people are interested in quilts at this time of the year, but when winter comes they are a necessity to keep us warm, and the people in the Manitoba flood area are going to need quilts to replace those lost in the flood if they are to survive a hard winter, following a disastrous flood. For this reason the Canadian Red Cross Society is collecting quilts at the present time, and the Society is asking local organizations and Red

Cross women's work committees to turn their efforts into supplying quilts at the present time. During the past month the Rugby W.I. has donated two quilts to the Manitoba Flood Relief, and the Elton Willing Workers have donated two quilts. Mrs. Minnie Krueger is also doing her share in providing components for quilts. Any organization in this district desiring to participate in this work should contact Mrs. Allan Gole or Mrs. W.A. Austin, who will arrange for the supply of materials.

THE CANADIAN WHEAT BOARD have asked producers to deliver as early as possible any wheat, oats or barley they intend marketing before July 31st, the end of the present crop year.

EARLY DELIVERY WILL ASSURE AN EARLIER FINAL SETTLEMENT TO PRODUCERS OF THESE GRAINS.
